## Patch Catalog for Microsoft SCCM

**The fast and easy way to update non-Microsoft software with Microsoft SCCM**

The Matrix42 Patch Catalog for SCCM enables you to patch and update your non-Microsoft products with your existing SCCM infrastructure.

## KEY FEATURES

- Full integration with SCUP, WSUS and SCCM.
- Regular updates of the Patch Catalog as .cab files.
- No additional infrastructure or agents required
- Patch logic included in the .cab file.
- Officially approved by patch distributors.
- More than 40 products covered from Skype, Sun Java, Firefox, Chrome, Adobe, Apple, and others.
- Continuous extension of the vendors and applications supported by the solution.
- Proven platform based on Matrix42 Patch Management.

## DID YOU KNOW?

According to Gartner, 90% of exploits take advantage of KNOWN vulnerabilities for which patches have been made available but not applied.

## Integrate your non-Microsoft patching tasks into SCCM now!

Visit [www.matrix42.com](http://www.matrix42.com) to register for a **Matrix42 live demo**.

Call us now or send an email and we'll be in touch to discuss your requirements.

## PATCH CATALOG FOR SCCM

### SCUP = System Center Updates Publisher

Enables third-party patching with standard WSUS and SCCM mechanism.

## FAST - EASY - PROVEN:

Based on our proven patch management solution used by hundreds of organizations, the Patch Catalog helps you close potential security vulnerabilities arising from unpatched applications quickly with minimum effort.

## HOW IT WORKS

- 1) Import the Update Catalog as a .cab file in System Center Updates Publisher.
- 2) Publish the update into Windows Server Update Services and synchronize it with SCCM.
- 3) Distribute patches for your non-Microsoft products in the same way as Microsoft patches.

## YOUR BENEFITS

- Reduced risk through fast, easy patching and updating of the most widely distributed applications.
- Minimum effort required through Patch Catalog updates at least once a week, dramatically simplified patch packaging, and reduced testing effort.
- Efficient working using familiar workflows and reporting through full integration with SCCM.
- RSS Feed which informs you about new Patch Catalogs.

The Matrix42 Patch Catalog is powered by Shavlik.
